

# Jersey Central Power & Light Instant Discounts Program

## About the program

The Instant Discounts Program provides participating HVAC distributors/vendors incentives for selling qualified HVAC equipment to end users or contractors serving end users. Distributors receive incentives from JCP&L, which they pass along to customers/contractors. Instant discounts are available for existing buildings only. New construction projects are not eligible.

## HVAC Equipment Instant Discount Requirements

1. Instant Discounts are provided at the distributor/vendor level.
2. A customer seeking an incentive for these products must seek out an eligible distributor or contractor who works with an eligible distributor. Costs of these programs may be recovered through customer rates in accordance with New Jersey law. For a complete list of commercial, industrial, residential and low-income energy efficiency programs, please visit [energysaveNJ.com](http://energysaveNJ.com).

By participating in these energy efficiency and peak demand reduction programs, customers agree to allow their utility to retain ownership of all Capacity Rights which refers to the demand reduction associated with any energy efficiency and peak demand reduction measure for which incentives were provided by the Company. Your utility will aggregate these energy efficiency demand reduction attributes into the PJM capacity market with proceeds being used to offset the program costs.

JCP&L's energy efficiency programs are administered by TRC, a third-party implementation specialist that helps homes and businesses save energy.
